Winter Solstice-

Create the textural beauty of Winter Solstice. Do you long for the peacefulness of an early winter snow? Remember those cold, snowy days...when you sipped hot chocolate and watched the snow, whisper down on your windowpane? With this book and CD-ROM combination, you will be able to create beautiful winter landscapes, resplendent with trees, snow and lots of embroidery and decorative work. Seven scenes to choose from. This is not a new book, but a technique that we have not presented at Paw Patch.

Crochet Lace Doily-

This lace doily is made completely on the embroidery machine. The CD has several different doily designs and beautiful roses. We have already taught the rose, but we now want to create the doily using cotton thread so that it will create a crocheted look and feel.

Roses In Bloom-

We are recreating this quilt in a new line of blue and yellow floral fabrics. We did a smaller version of this quilt many years ago and have decided to re-design and bring it back with a fresh look. It was hugely popular. We are not re-making the new quilt, but will have a computer generated image of the quilt with new fabrics and redesigned components and the old quilt available.
