

## Project Classes

### Ripples & Reflections- 90x100"

This captivating design by Laurie Shifrin Designs is much easier than it appears! Using traditional piecing; squares, rectangles and triangles, the rippling design lets this gorgeous array of jewel-toned batiks and hand paints do all the work. Watery/organic colors and piecing that moves the eye across the quilt make this stunning creation one that you will love from the first stitch.
